

Traveller5 Dice:

Add a sample of our **Traveller5** dice to your order: one each of the standard Black, White, Red, and Yellow 18mm molded plastic six-sided dice created especially for **Traveller5**.

These are molded dice: the Imperial sunburst and the numbers depressions in the surface of the dice faces and color-inked. The colors are immune from rubbing effects; the markings cannot rub off as they would with screen-printing or pad-printing.

After years of rolling half-inch dice, we have found that 18mm (three-quarter inch) dice have a much more satisfying feel and roll. We think you'll agree.

Traveller Dice Sampler: Five dice in a small box. \$6.
